INDEX

S.NO	PARTICULARS	DATE	SIGN		
1.	Make following 5 different web pages - I) Formatting styles and headings : bold, italic, underline, strike, subscript and all 6 types of heading. II) Font styles and image tag. III) Marquee : move text , image and hyperlink IV) Other tags: br, hr, pre and p.				
2.	Create an unordered nested inside ordered list add apply the following - I) Insert an image of main item on the top right corner of webpage. II) Display heading as marquee. III) Use different font styles and colours for different ordered list items. IV) Insert horizontal line after each ordered list item.				
3.	Design a table with rows and columns and make the use of following attribute - I) Col span II) Row span III) Width IV) Height V) Cellpadding VI) Cellspacing				
4.	Design following frame: <div style="border: 1px solid black; padding: 10px; width: fit-content;"> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 30%; vertical-align: top; padding-right: 10px;"> MAIN MENU TOPIC 1 TOPIC 2 TOPIC 3 </td> <td style="width: 70%;"> EXPLANATION ----- ----- <hr style="border: 0; border-top: 1px solid blue; margin-top: 10px;"/> EXAMPLES </td> </tr> </table> </div>	MAIN MENU TOPIC 1 TOPIC 2 TOPIC 3	EXPLANATION ----- ----- <hr style="border: 0; border-top: 1px solid blue; margin-top: 10px;"/> EXAMPLES		
MAIN MENU TOPIC 1 TOPIC 2 TOPIC 3	EXPLANATION ----- ----- <hr style="border: 0; border-top: 1px solid blue; margin-top: 10px;"/> EXAMPLES				
5.	Design student registration form for admission in college.				
6.	Create a webpage and show the usage of Inline, Internal and External style sheet.				

7.	Create a web page showing the usage of font styling attributes.		
8.	Write a program Arithmetic operator in Javascript.		
9.	Write a program to show the usage of dialog boxes.		
10.	Write a program to perform the if else operation.		
11.	Write a program to implement event handling using on click , on mouseover and on mouseout event .		

1. MAKE FOLLOWING 5 DIFFERENT WEB PAGES

I) FORMATTING STYLES AND HEADINGS : BOLD, ITALIC, UNDERLINE, STRIKE, SUBSCRIPT AND ALL 6 TYPES OF HEADING.

Los Santos

A sprawling sun-soaked metropolis full of self-help gurus, starlets, and fading celebrities, once the envy of the Western world, now struggling to stay afloat in an era of economic uncertainty and cheap reality TV.

Amidst the turmoil, three very different criminals plot their own chances of survival and success : Franklin, a street hustler looking for real opportunities and serious money; Michael, a professional ex-con whose retirement is a lot less rosy than he hoped it would be; and Trevor, a violent maniac driven by the chance of a cheap high and the next big score. Running out of options, the crew risks everything in a series of daring and dangerous heists that could set them up for life.

</BODY>

</HTML>

MINECRAFT

Minecraft is a sandbox video game developed by the Swedish video developer Mojang Studios. The game was created by Markus "Notch" Persson in the Java programming language it was first made public in May 2009 before fully releasing in November 2011, with Jens "Jeb" Bergensten then taking over development. Minecraft has since been ported to several other platforms and is the best-selling video game of all time, with over 238 million copies sold and nearly 140 million monthly active users as of 2021>In Minecraft, players explore a blocky, procedurally generated 3D world with virtually infinite terrain, and may discover and extract raw materials, craft tools and items, and build structures, earthworks and simple machines . Depending on game mode, players can fight computer-controlled mobs, as well as cooperate with or compete against other players in the same world. Game modes include a survival mode, in which players must acquire resources to build the world and maintain health, and a creative mode, where players have unlimited resources and access to flight. Players can modify the game to create new gameplay mechanics, items, and assets.

9. Write a program to show the usage of dialog boxes.

<html>

```
<head>

    <script type = "text/javascript">

        function Warn() {

            alert ("This is a warning message!");

            document.write ("This is a warning

message!");

        }

    </script>

</head>

<body>

    <p>Click the following button to see the
result: </p>

    <form>

        <input type = "button" value = "Click Me"
onclick = "Warn();" />

    </form>

</body>

</html>
```

Click the following button to see the result:

Click Me

This page says

This is a warning message!

OK

10. Write a program to perform the if else operation.

```
<html>
  <body>
    <script type = "text/javascript">
      var age = 20;

      if( age > 18 ) {
        document.write("<b>Qualifies for
driving</b>");
      }

    </script>
    <p>Set the variable to different value and
then try...</p>
  </body>
</html>
```

Qualifies for driving

Set the variable to different value and then try...

11. Write a program to implement event handling using on click , on mouseover and on mouseout event .

ON CLICK

```
<html>
<head> Javascript Events </head>
<body>
<script language="Javascript"
type="text/Javascript">
    function clickevent()
    {
        document.write("This is JavaTpoint");
    }
</script>
<form>
<input type="button" onclick="clickevent()"
value="Who's this?"/>
</form>
</body>
```

```
</html>
```

ON MOUSE OVER

```
<html>  
<head>  
<h1> Javascript Events </h1>  
</head>  
<body>  
<script language="Javascript"  
type="text/Javascript">  
function mouseoverevent()
```

```
{
```

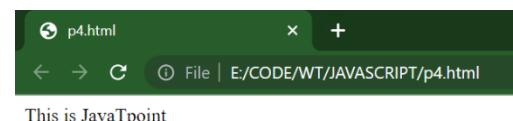

```
    alert("This is JavaTpoint");
```

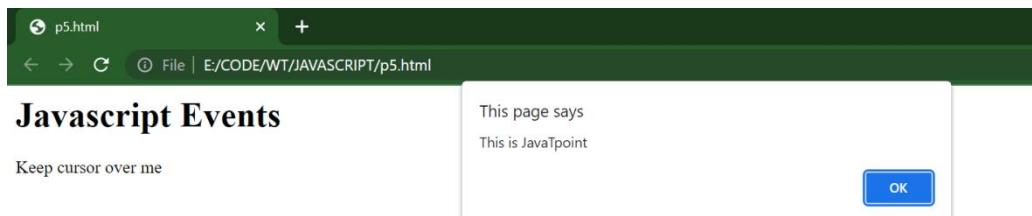

```
}
```

```
</script>
```

```
<p  
onmouseover=  
er="mouse
```

```
overevent()"> Keep cursor over me</p>
</body>
</html>
```

Mouseout

```
<html>
<head>
<h1> Javascript Events </h1>
</head>
<body>
<script language="Javascript"
type="text/Javascript">
function mouseoutevent()
{
    alert("This is JavaTpoint");
}
```

```
}

</script>

<p onmouseout="mouseoutevent()"> Keep cursor
over me</p>

</body>

</html>
```
